VICE CHAIRMAN

FRED J. WATTS,
TREASURER

JOHN A. CALLAHAN

FELIX L. O'NEILL

MAIN OFFICES:
90 BROADWAY
LAWRENCE, MASSACHUSETTS
WHAT IS URBAN REDEVELOPMENT?

Urban Redevelopment is the process of clearing land to eliminate blighted housing, conflicting land uses and uneconomical neighborhoods, and to plan and promote the proper use of land so as to best serve the interests of our City and its people from both an economic and social standpoint.

WHAT LOCAL AGENCY IS CHARGED WITH THE RESPONSIBILITY OF CARRYING OUT THE PROGRAM?

The Lawrence Housing Authority, consisting of five appointive members, is the responsible local agency under Massachusetts Statutes.
WHERE WILL THE LOCAL REDEVELOPMENT AREA BE LOCATED?

The local area is roughly that part of the City between Lawrence Street and Broadway, and Common Street and Bradford Street. About 35 acres in the heart of the City.

WHY WAS THIS AREA SELECTED?

Census data showed the area to be predominately sub-standard; conflicting land uses are widespread; it is unproductive from a standpoint of tax return, and an economic liability to the City. Because of its location, adjacent to the main shopping district, it has attractive reuse possibilities.
ARE OTHER CITIES IN THE COUNTRY, AND PARTICULARLY IN OUR VICINITY, ENGAGING IN SIMILAR REDEVELOPMENT PROJECTS?

Yes, most large cities are engaged in the same type or similar programs. Some of these are noted on the Map.

WHY IS THE GOVERNMENT DOING THIS JOB RATHER THAN PRIVATE ENTERPRISE?

The job of clearing slums and blighted areas is such a huge one that private enterprise by its own devices can not do the job without assists from Local and Federal Government in the form of financial aid. After the land is cleared, private enterprise takes over. It must of necessity be a cooperative effort.

WILL THIS PROGRAM COST THE CITY ANY MONEY?

As like most every worthwhile civic endeavor, the finances of the City are involved. However, the City is relieved of a good proportion of the cost since the United States Government offers to pay two-thirds of the net cost. Even with this help the City will have to spend, perhaps, more than one-half million dollars.
HOW WILL THE CITY BENEFIT
BY REDEVELOPMENT?

The new development will add
to the attractiveness of the
heart of the City's business
district, increase tax yield,
aleviate traffic and parking
conditions, and give the civic
and economic life of the City a
lift.

WILL THE CITY LOSE TAXES
DURING THE REDEVELOPMENT
PERIOD?

The City will receive full
taxes on the land during re-
development and on structures
as long as they are standing.

WILL THERE BE A LOSS OR GAIN
IN REVENUE TO THE CITY WHEN
WE HAVE A REDEVELOPED AREA?

The return to the City in
taxes in the area is now only
slightly over one hundred
thousand dollars per year. We
hope this will increase many
times when the entire area is
developed.
MAY A PERSON IN BUSINESS IN THE AREA RELOCATE IN THE AREA?

It is hoped that many of the businesses in the area will desire to relocate in the new area and they will be encouraged to do so, providing they can meet the requirement.

WILL ALL PARCELS IN THE AREA BE TAKEN?

Some of the substantial buildings in the area not in conflict with the new development may remain in the area. In this case owners must agree to abide by any restrictions placed on the area as a whole.

WILL THE WHOLE AREA BE TORN DOWN AT THE SAME TIME?

The area will be developed in stages, and business which is to relocate within the area may be able to construct their new facility before having to move.
SHOULD I SELL MY PROPERTY NOW?

You may of course sell your property any time you wish, but do not be misled. The Housing Authority will pay you the fair value of your property.

HOW, AND HOW MUCH, WILL I BE PAID FOR MY PROPERTY?

You will be paid in cash, and immediately upon transfer of title. The amount paid will be the fair market value of the property at the time of transfer.

WHO DETERMINES HOW MUCH I WILL RECEIVE FOR MY PROPERTY?

The real estate will be appraised by expert independent appraisers working under a fee contract with the Authority, none of whom may have any interest in any property in the area.
SHOULD I REPAIR MY PROPERTY NOW?

All property should be given ordinary maintenance and repair as the condition of the property at the time of transfer will certainly have a bearing on its value.

WHEN WILL BUILDINGS BE TORN DOWN?

The exact date of demolition is not yet established. It is safe to say that it will be at least another year before much property is acquired.

IF I OWN VACANT LAND IN THE AREA AND WANT TO BUILD, SHOULD I BUILD NOW?

We can not tell you not to build, but it might be advisable to wait until plans are further developed.
WHAT HAPPENS TO TENANTS?

Tenants in the area will eventually have to move, but should not become alarmed, since no tenant must move until adequate quarters are available. The Authority will set up a rehousing office to help tenants with their problems.

CAN FAMILIES LIVING IN THE AREA MOVE TO PUBLIC HOUSING?

Those families living in the area found to be eligible for Public Housing, in accordance with income standards only, will be given first preference in vacancies.

WHO WILL PAY FOR MY MOVING?

The Housing Act of 1956 provides for some financial help to families forced to move from the area, if such help is necessary.
WHAT HAPPENS TO BUSINESS IN THE REDEVELOPMENT AREA?

Most of the present businesses in the area will be able to adapt themselves to the new area. Some that depend strictly on trade from residents in the district will perhaps find it more advantageous to move to other neighborhoods.

CAN I RETAIN AND DEVELOP MY OWN PROPERTY?

You may retain and redevelop your own property if you can do so and still conform to the general redevelopment plan of the whole area. Because of street closings, widenings and changes, it may not be possible. To determine the possibilities you should check with the Housing Authority Office.

WHO WILL BUILD NEW BUILDINGS?

In some cases the builder might be a single business constructing for individual use, other redevelopers will be constructing for rental purposes. All construction will be done by private individuals or firms, not by the Government.
FOR WHAT NEW USES WILL LAND IN THE AREA BE USED AFTER IT IS CLEARED?

The new land uses call for retail, parking, commercial, and light industrial use, and possibly a small amount of residential to be devoted to apartment type structures.

- PARKING AND RETAIL
- MUNICIPAL AND FEDERAL
- PUBLIC OPEN
- PROJECT AREA LIMITS

HOW WILL THE LAND IN THE AREA BE SOLD?

In some instances by negotiation, as will be the case when the redeveloper is a public agency or semi-public non profit body. Negotiation on a buy and sell basis can also be utilized when a present owner desires to acquire a comparable amount of land elsewhere in the area. Land specifically adapted to a single use can be sold by negotiation. In the main, however, the great bulk of land will be sold by public sale through the medium of sealed bids, after ample publicity and wide-spread advertising, so that everyone may avail himself of the opportunity to purchase.
WHAT HAPPENS TO SURVEY COSTS IF THE CITY GOVERNMENT VOTES TO DISCONTINUE THIS PROGRAM?

Survey and Planning expense are part of the overall project cost and are not an obligation of the City but of the local agency. If the project does not become a reality there are no provisions for the repayment of the loan.

WILL CITIZEN GROUPS GET A CHANCE TO BE HEARD REGARDING THIS PROGRAM?

There will be many public meetings and at the time of application for a Capital Grant from the Federal Government the City will hold an open public hearing on the entire redevelopment plan.
